PROFESSIONAL SUMMARY

AI/ML-focused Computer Science Engineer (VIT Andhra Pradesh) with hands-on experience building RAG pipelines, LLM-powered applications, and full-stack Python backends. Delivered production-grade platforms leveraging LangChain, vector databases, Flask, and REST APIs. Passionate about Generative AI, NLP, and intelligent systems. Seeking AI/ML, GenAI, or SDE internships to drive real-world impact.

AI & MACHINE LEARNING SKILLS

Generative AI & LLMs: LangChain, RAG Pipelines, LangGraph, Prompt Engineering, Groq API, HuggingFace Transformers

ML Frameworks: Scikit-learn, NumPy, Pandas

NLP & Search: Semantic Search, Text Embeddings, Vector Databases (ChromaDB), Sentence Transformers

Computer Vision: OpenCV (fundamentals), Image Processing

Data & Analysis: Data Preprocessing, EDA, Feature Engineering, Matplotlib, Seaborn

TECHNICAL SKILLS

Languages: Python, Java, C, JavaScript

Web & Frameworks: Flask, SQLAlchemy, HTML5, CSS3, Bootstrap, REST APIs, FastAPI

Cloud & DevOps: AWS (EC2, S3, IAM), Docker (fundamentals), Git, GitHub, Render, CI/CD

Databases & Vector Stores: MySQL, SQLite, SQL, ChromaDB

Tools: VS Code, Figma, Postman, Jupyter Notebook

PROJECTS

Self-Healing RAG Platform | Enterprise AI Knowledge Assistant

Jun 2026 – July 2026

Tech: Python · FastAPI · LangChain · LangGraph · ChromaDB · Groq · React / Live: [Self-Healing-platform](#)

- Developed a Retrieval-Augmented Generation (RAG) platform for querying multi-format documents using semantic search and vector embeddings
- Implemented self-healing mechanisms including query rewriting, retrieval validation, and retry logic to improve answer accuracy and reduce hallucinations
- Built an analytics dashboard to monitor faithfulness, confidence scores, hallucination rate, answer relevance, and retrieval performance
- Integrated LangChain, LangGraph, ChromaDB, and Groq LLM to provide context-aware responses with source citations and document traceability

AI Placement & Learning Copilot | RAG-Based Career Intelligence System

Mar 2026 – Jun 2026

Tech: Python · LangChain · ChromaDB · OpenAI API · Flask · SQLite · HuggingFace

- Engineered an end-to-end RAG pipeline ingesting 500+ career documents into ChromaDB vector store, achieving <1.2s retrieval latency for semantic career Q&A
- Integrated LangChain RetrievalQA with HuggingFace embeddings to deliver personalized job recommendations, reducing irrelevant suggestions by ~40% vs. keyword search
- Built an automated resume analyzer that parses PDF resumes, identifies skill gaps against JD requirements, and generates tailored improvement plans via LLM prompting
- Deployed Flask REST API backend serving 3 AI endpoints (career Q&A, resume analysis, mock interviews) with JWT-based authentication and rate limiting

CareerConnect | Full-Stack Career Platform

Apr 2026 – Jun 2026

Tech: Python · Flask · SQLAlchemy · SQLite · Bootstrap · Render | Live: [careerconnect-4obn.onrender.com](#)

- Designed and deployed a production-grade career platform with JWT authentication, role-based access control (admin/recruiter/applicant), and RESTful APIs supporting 50+ endpoints
- Built advanced job/internship search module with multi-filter querying (role, location, skill), cutting average job discovery time by 60% vs. unfiltered browsing
- Developed CRUD-complete admin dashboard managing 500+ mock user records, job postings, and application pipelines with audit logging

CERTIFICATIONS

AWS Academy Graduate – Cloud Foundations	2025
AWS Academy Graduate – Cloud Architecting	2025
MATLAB Certification · MathWorks	2023–2024

EDUCATION

B.Tech in Computer Science & Engineering

Sep 2023 – Present

Vellore Institute of Technology, Andhra Pradesh | Relevant: DSA, DBMS, OOP, Computer Networks, Software Engineering

Intermediate (Class XII – CBSE)

Sri Chaitanya Techno School

Jun 2021 – May 2022
